Dear Colleagues,

I would like to recommend Marc Levitt as a story teller who can perform and conduct workshops at your school. He visited Escuela Campo Alegre in January of 2007. During his visit, he performed his stories and conducted workshops for students, teachers and parents. Each group reported that they enjoyed working with Mr. Levitt. He is not only a skilled performer, but is also a good educator. Additionally, his knowledge of Third Culture issues makes him uniquely suited to present and work with your school's student, faculty and parent community.

Regards,
